Report Guide

About This Dashboard

This dashboard analyzes customer support activity to identify service, product, satisfaction, and refund drivers that impact business performance.

Data Scope

Data Period : Aug 2024 – Jul 2026

Reporting Year : Aug – Jul

Unit of Analysis : Support Ticket

Data Treatment & Notes

- YoY: Percentage change compared with the previous Reporting Year.
- YoY is shown when prior-year data is available.
- Reporting Year follows an Aug–Jul cycle.
- Blank CSAT values are excluded from CSAT averages.
- Missing Region values are grouped as "Unknown."
- Each record represents one support ticket.

Metric	Definition
Total Tickets	Total number of support tickets.
Resolution Rate	Percentage of tickets that were resolved.
Refund Tickets	Total number of support tickets resulting in a refund.
Refund Rate (%)	Percentage of support tickets that resulted in a refund.
Refund Amount	Total monetary value of refunded tickets.
Avg Refund Amt per Refunded Ticket	Average refund amount for each refunded ticket.
Average RT (hrs)	Average time taken to resolve a ticket, in hours.
Average FRT (hrs)	Average time taken to provide the first response to a ticket, in hours.
Average CSAT	Average customer satisfaction score for tickets with a recorded CSAT.
